How to use your forecast cards

- Pick one of the races in your night for each card, usually the race before the interval and the second last race of the night and nominate them as forecast races.
- Write a race number on each forecast card.
- Decide how much you want to sell each square for.
A suggested amount is £1
- Decide how much you want to give as a prize.
A suggested amount is £20
- Sell all of the squares on your forecast cards.
- Your MC will take care of the rest when announcing the result of the nominated races by presenting the prize to the winner.

Sell 56 squares @ £1 = £56.00

Deduct the prize of £20.00

Total raised per card = £36.00

Please contact us if you require more cards
